

To: Whom It May Concern

I write this letter today to ask for consideration on behalf of Sharon Jones, who founded Lucille's Home in 2013. This organization exists to serve mothers and children in our community, and has greatly helped my family and myself personally. I first met Sharon in 2018 while I was pregnant with my youngest son, and Lucille's Home and Sharon have been a part of our journey since.

Sharon wears many hats, so to speak. She selects what mothers would be a good fit to reside in the ministry home based on their circumstances, space availability within the home, and compatibility with the rules of the home and resources of the ministry. She has personally moved families into the home, including mine when she picked myself and my 6 year twins up from a shelter and helped unpack our belongings. She helped mediate any issues that arose with maintenance of the home, and helped maintain peace between the families residing in the home. My stay at the home was short, I believe 5 weeks. But she has continued to support me with both support and ministry resources since.

I cannot think of a more deserving cause for financial support than Sharon. Lucille's Home has made a great difference in many families lives and she does this even when resources are quite limited. The idea of the impact more resources would have on families and our community brings a smile to my face and warms my heart all these years later.

Sincerely,
